

Pro Coat

PROTECTIVE NANOCOATING FOR BIKES AND PARTS

- ✓ Makes cleaning easier.
- ✓ For glossy and matt frames.
- ✓ Safe for disc brakes.

Technical Info

- Form: liquid.
- Odour: characteristic odour.
- Colour: transparent white.
- pH: 6.
- Boiling point: 100 - 233°C.
- Vapour pressure (20°C): 2,332 hPa.
- Relative density (20°C): 1.0.
- Solubility in water: soluble.
- Dynamic viscosity (20°C): 1 mPa.s.
- Kinematic viscosity (20°C): 1 mm²/s.
- Shelf life: 12 months dry, cool and frost free.
- Safety measures: please consult the safety card.

Packing

Pro Coat - aerosol (bag on valve)
400ml

Product

Characteristics

You have a beautiful bike and want it to stay that way for as long as possible. However, water, UV and dirt can quickly alter its appearance. To protect your bike against this, treat your bike regularly with Bike7 Pro Coat. Pro Coat uses nanotechnology and puts a protective layer on your bike and all its parts. That protective layer will significantly reduce dirt adhesion, make washing considerably easier and reduce the risk of scratches. Sensitive materials will also be better protected from fading due to UV exposure.

Bike7 Pro Coat is safe to use and can be applied to your entire bike. On brake discs, it will not cause noise or reduce braking power.

The spray can with innovative spray system allows extremely low product consumption and is at the same time environmentally friendly because it contains no VOC or propellants. Always out of concern for the environment: the Pro Coat formula is non-toxic and the surfactants it contains are biodegradable in accordance with EC regulations.

Bike7 Pro Coat: essential for those who like to take care of their bike(s).

Applications

Protects and embellishes varnishes, metals, synthetic materials, carbon, rubber, etc.

Use

- Spray Bike7 Pro Coat on your dry bike.
- Then wipe off with a microfibre cloth.

The protective layer is completely hardened after 12 hours.

After washing with Bike7 Wash & Finish, you can also apply Pro Coat to your wet bike, then dry your bike with a microfibre cloth.

Bike7 Pro Coat on brake discs will not cause any braking noise.
