Product

Characteristics

If bicycle (dis)assembly is your business you need professional products. We have developed a protective and repairing assembly grease specially for professional assemblers.

Mount simplifies the assembly and disassembly of parts. It contains repairing properties so also offers excellent protection against corrosion and wear.

Applications

- For the professional (dis)assembly of pedals, saddle pins, ...

Use

First clean the parts to be lubricated with Degrease. Then dry with compressed air or just let it evaporate.
