Product

Characteristics

Would you like to wash and protect your bike in one operation? Then Bike7 Wash & Finish is made for you!!! Wash & Finish's specific pH-neutral formula not only makes it an ideal cleaner to wash your bike in complete safety, but also protects it with a vegetable wax with high-gloss effect. You don't have to worry about brake discs either, with Wash & Finish your brakes will remain noiseless with no loss of braking power. One 500 ml pack is mixed with 5 litres of water. So you get 5.5 litres of Wash&Finish! The ultra-concentrated formula also means less plastic waste. Suitable for both professional and amateur cyclists who want to keep their bikes in top condition.

Applications

- Road - Mountain - city - e-bikes.
- Effective cleaning of handlebars, frames, forks, click pedals, wheels, etc.
- Removal of dried dirt, sweat, sand, dust, etc. from stainless steel, aluminium, titanium, lacquer, rubber, carbon, etc.

Use

- First clean the transmission with Chain Clean (see Chain Clean instructions for use).
 - Mix 100ml Wash & Finish with 1 litre of water in a sprayer.
 - Wet your bike and spray Wash & Finish mixture all over the bike.
 - Use a Rasta glove for optimal results: wet the Rasta glove and spray Wash & Finish on it as well. Rub your bike clean. For extra shine, spray Wash & Finish on the whole bike again. Rinse your bike with clean water. Rub your bike dry with a microfibre cloth.
- The protective wax layer can be additionally reinforced with Bike7 Pro Coat.
