

Lubricate Oil

Lubricate

ALL CONDITIONS CHAIN OIL

- ✓ Non-sticky
- ✓ Protects against rust
- ✓ Easy to clean

Technical Info

- Colour: transparent yellow.
- Odour: characteristic.
- Relative density at 20°C: 0.88 kg/L.
- Dynamic viscosity at 20°C: 500 mPa.s.
- Shelf life: 36 months, kept cool and dry in original packaging.

Packing

Lubricate Oil - bottle 150ml

977430924

Product

Characteristics

Do you like efficiency and ease of use? Then read on!

Lubricate Oil is our brand new chain oil, specially formulated for use in all weather conditions and on all types of bike. So whether you're a touring cyclist or a demanding competitor, there's no more wondering what the weather will be like tomorrow, or whether you'll be able to avoid a downpour or not. No need to keep 2-3 bottles of oil in your garage either. With Lubricate Oil, you'll always have the right oil to hand!

A silent chain, smooth gear shifting, very little friction - that's what Lubricate Oil has in store for you, and much more besides.

Its specific formula will effectively protect your chain against corrosion during your rainy and wintry outings.

Its solvent-free, PTFE-free composition not only helps to protect the environment, but its non-stick feel won't attract dust or dirt, helping to extend

the life of your chain.

Simple to use. No time to degrease and lubricate your chain before your next ride? Just wipe it down with a cloth and apply a coat of Lubricate Oil, and you're ready to get on your bike and join your friends for a good ride.

But remember, the best lubrication comes from a clean surface. So whenever possible, degrease your chain with Degrease or Chain Clean before applying a new coat of oil.

Applications

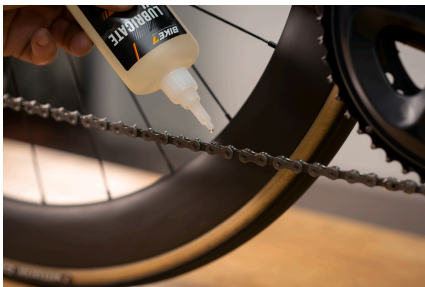

For all types of bikes: road, mountain bike, gravel, city, e-bikes,

For use on dry, dusty, damp, wet or muddy surfaces and for all types of distances: rando, road, cx, x-country, xc marathon, gravel, ultra gravel, etc.

Use

Apply to the centre of the links along the length of the chain. If necessary, wipe off the excess with a clean, dry cloth before riding.

Tip: For optimum performance and longevity, degrease the chain and change the oil after each ride.
